ENTREPRENEURS BY NATURE

Leading French renewable energy **Independent Power Producer and Developer**

<p>2007 Creation</p> <p>> €260m Consolidated revenues</p>	<p>Independence Éric Scotto & Patrice-Lucas Colam Entrepreneurs*</p> <p>> 15 Local entities worldwide</p>	<p>Integrated player Development, Construction, Financing, Asset Management - O&M</p> <p>€2.6bn Cumulative investment</p>	<p>Focus on territories Decentralized renewable energy solutions</p> <p>> 350 Employees</p>	<p>1,3 GW Electric power</p> <p>95 MWh Heat power</p> <p>>50 MWh storage</p> <p>Capacity in operation and under construction</p>
--	--	---	--	--

<p> Wind</p>	<p> Solar</p>	<p> Biomass</p>	<p> Hydro</p>	<p> Storage</p>
---	--	--	--	--

* Colam Entrepreneurs is a private family-owned company that is the founding shareholder of Sonepar, the world's number one B-to-B distributor of electrical products, solutions and related services.

2020 year-end

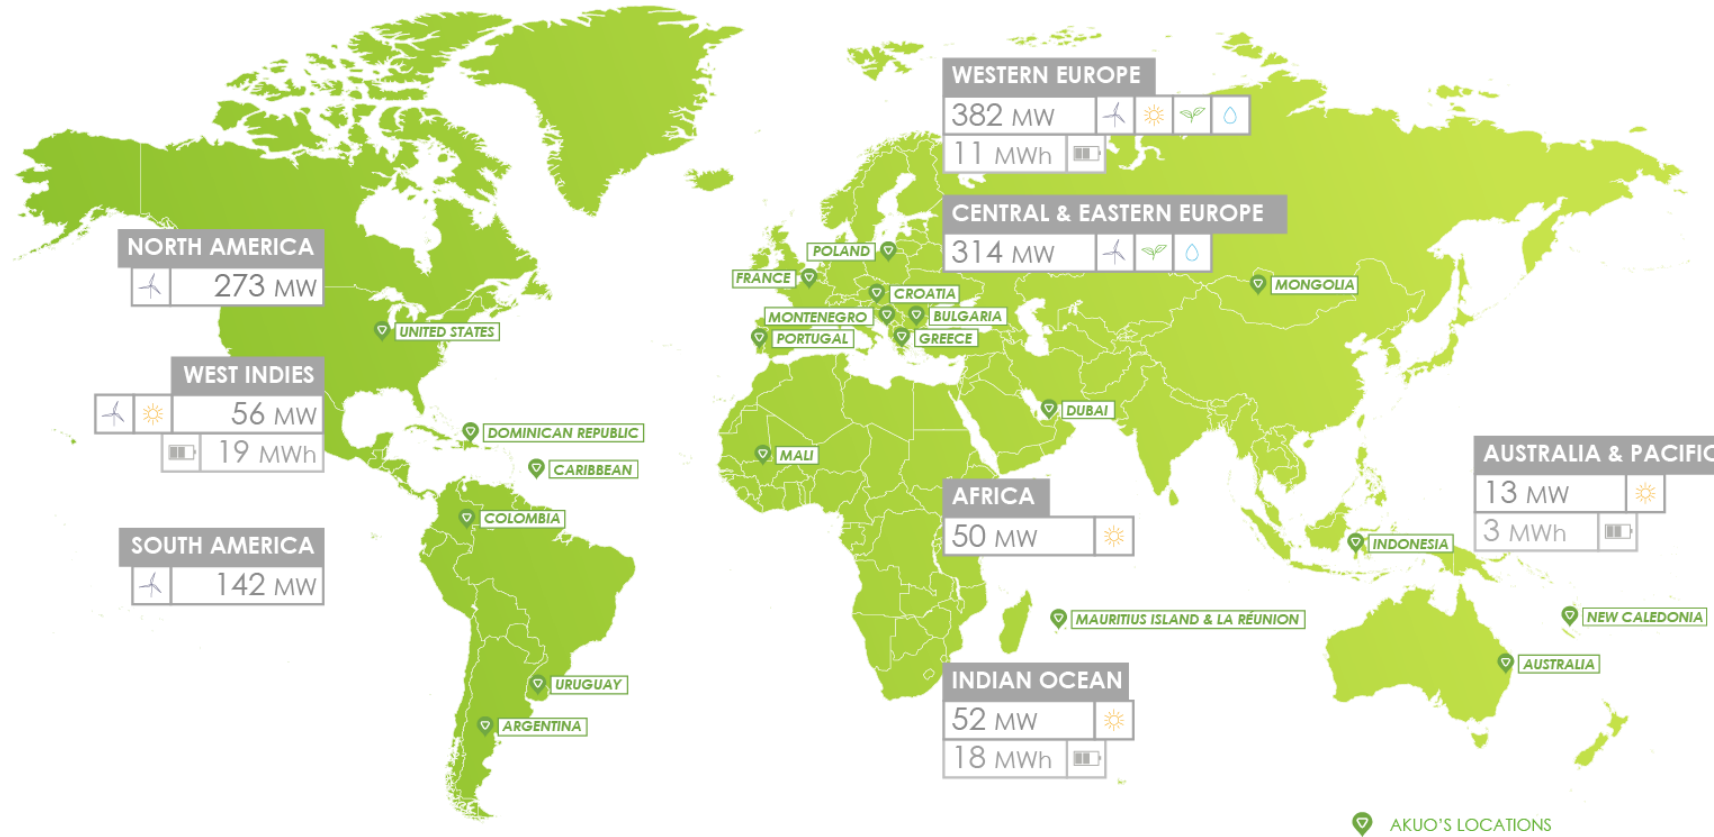

| PURE PLAYER IN RENEWABLES

> **€290m** in energy sales in 2020
(estimated unaudited figures)

| A GLOBAL RENEWABLE ENERGY POWER PRODUCER

| Capacity in operation and under construction:

1,3 GW **> 50 MWh**
 Electric power Storage

| Technologies:

Note: data as of December 2020

| ACHIEVEMENTS

PECASA

50 MW

Wind

Dominican Republic

| ACHIEVEMENTS

KITA

50 MW

Solar

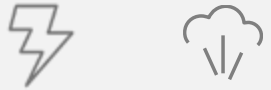

Mali

| ACHIEVEMENTS

NOVILLARS

20 MW – 23 MWh

Biomass

France

| ACHIEVEMENTS

AQUABELLA

2.2 MW

Hydro

France

RENEWABLE ENERGY PROJECTS TO SERVE TERRITORIES

Agrinerie®

The combination of **energy and agricultural production** on the same surface area has many benefits at the local level.

Aquanergie

Hybrid storage
and grid services

Integration of **higher shares of variable renewable electricity generation**. Connected to a green energy power plant, **electricity storage systems** enable an adjustment between energy supply and demand.

Hydrogen

The production of **green hydrogen** is a solution particularly suited to the challenges of **industry and mobility**.

RENEWABLE ENERGY PROJECTS TO SERVE TERRITORIES

Floating solar
(Hydrelio® by Ciel&Terre)

Floating solar is a solution to land use conflict and brings value to unused areas.

Mobile power generation units

GEM® - **Green Energy in Motion**, a containerized solar and storage solution particularly suitable for isolated and hurricane-prone sites.

Solar roof tiles
(Sunstyle®)

Perfectly integrated into the urban landscape, **solar roof tiles** meet the needs of the city of the future.

Crowdfunding platform
AkuoCoop

Launched in 2017, **Akuo's proprietary platform** allows people to invest at a local level and give meaning to their savings.

| SOLUTIONS : projects in operation and under construction

STRONG EXPERTISE IN ASSET MANAGEMENT - O&M

Support

- Commissioning
- Plant upgrade / modifications
- Spare parts management

Audit

- Performance analysis
- Plant status
- Diagnosis

Corrective maintenance

- Troubleshooting
- Maintenance level 1 to 4 (including Inverters)
- Spare parts control

Scheduled maintenance

- Control, measurements
- Cleaning
- Spare parts replacement
- Substation

O&M SERVICES

From periodic visual inspections to one-off corrective maintenance activities

Blade inspections

- Full blade covering
- On-site inspection
- Reporting & follow-up

Turbine inspections

- HSE compliance
- Risk Analysis
- General turbine state

Yaw misalignment monitoring

- Installation & Operation
- Results follow-up & actions

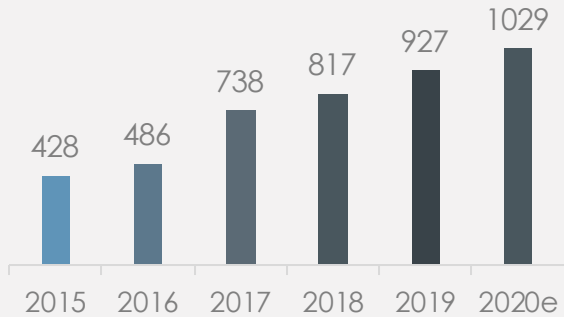

Gearbox inspections

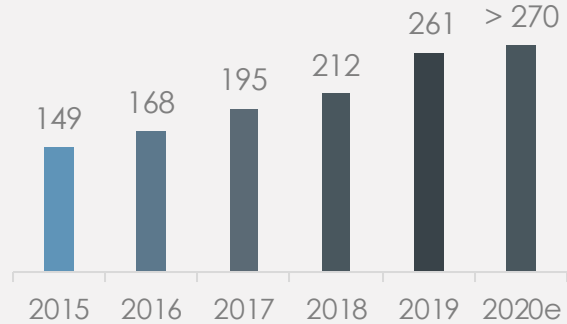

- Non-destructive test using boroscope technology
- Control of gears and bearing

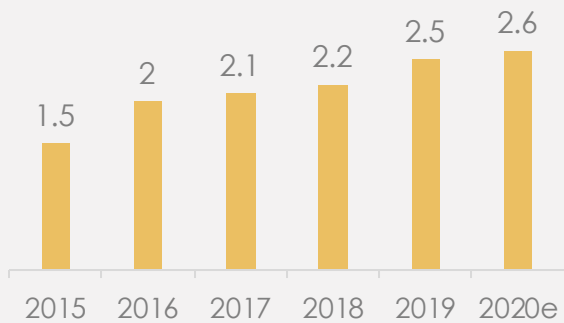

KEY FINANCIAL NUMBERS

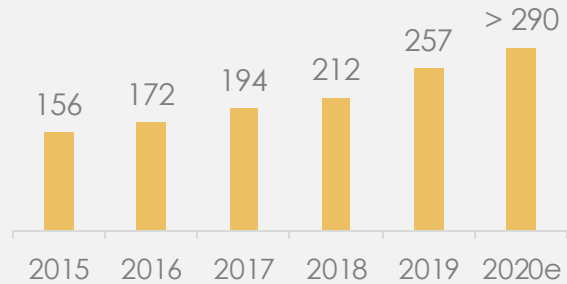

MW in operation

Consolidated sales (€m)

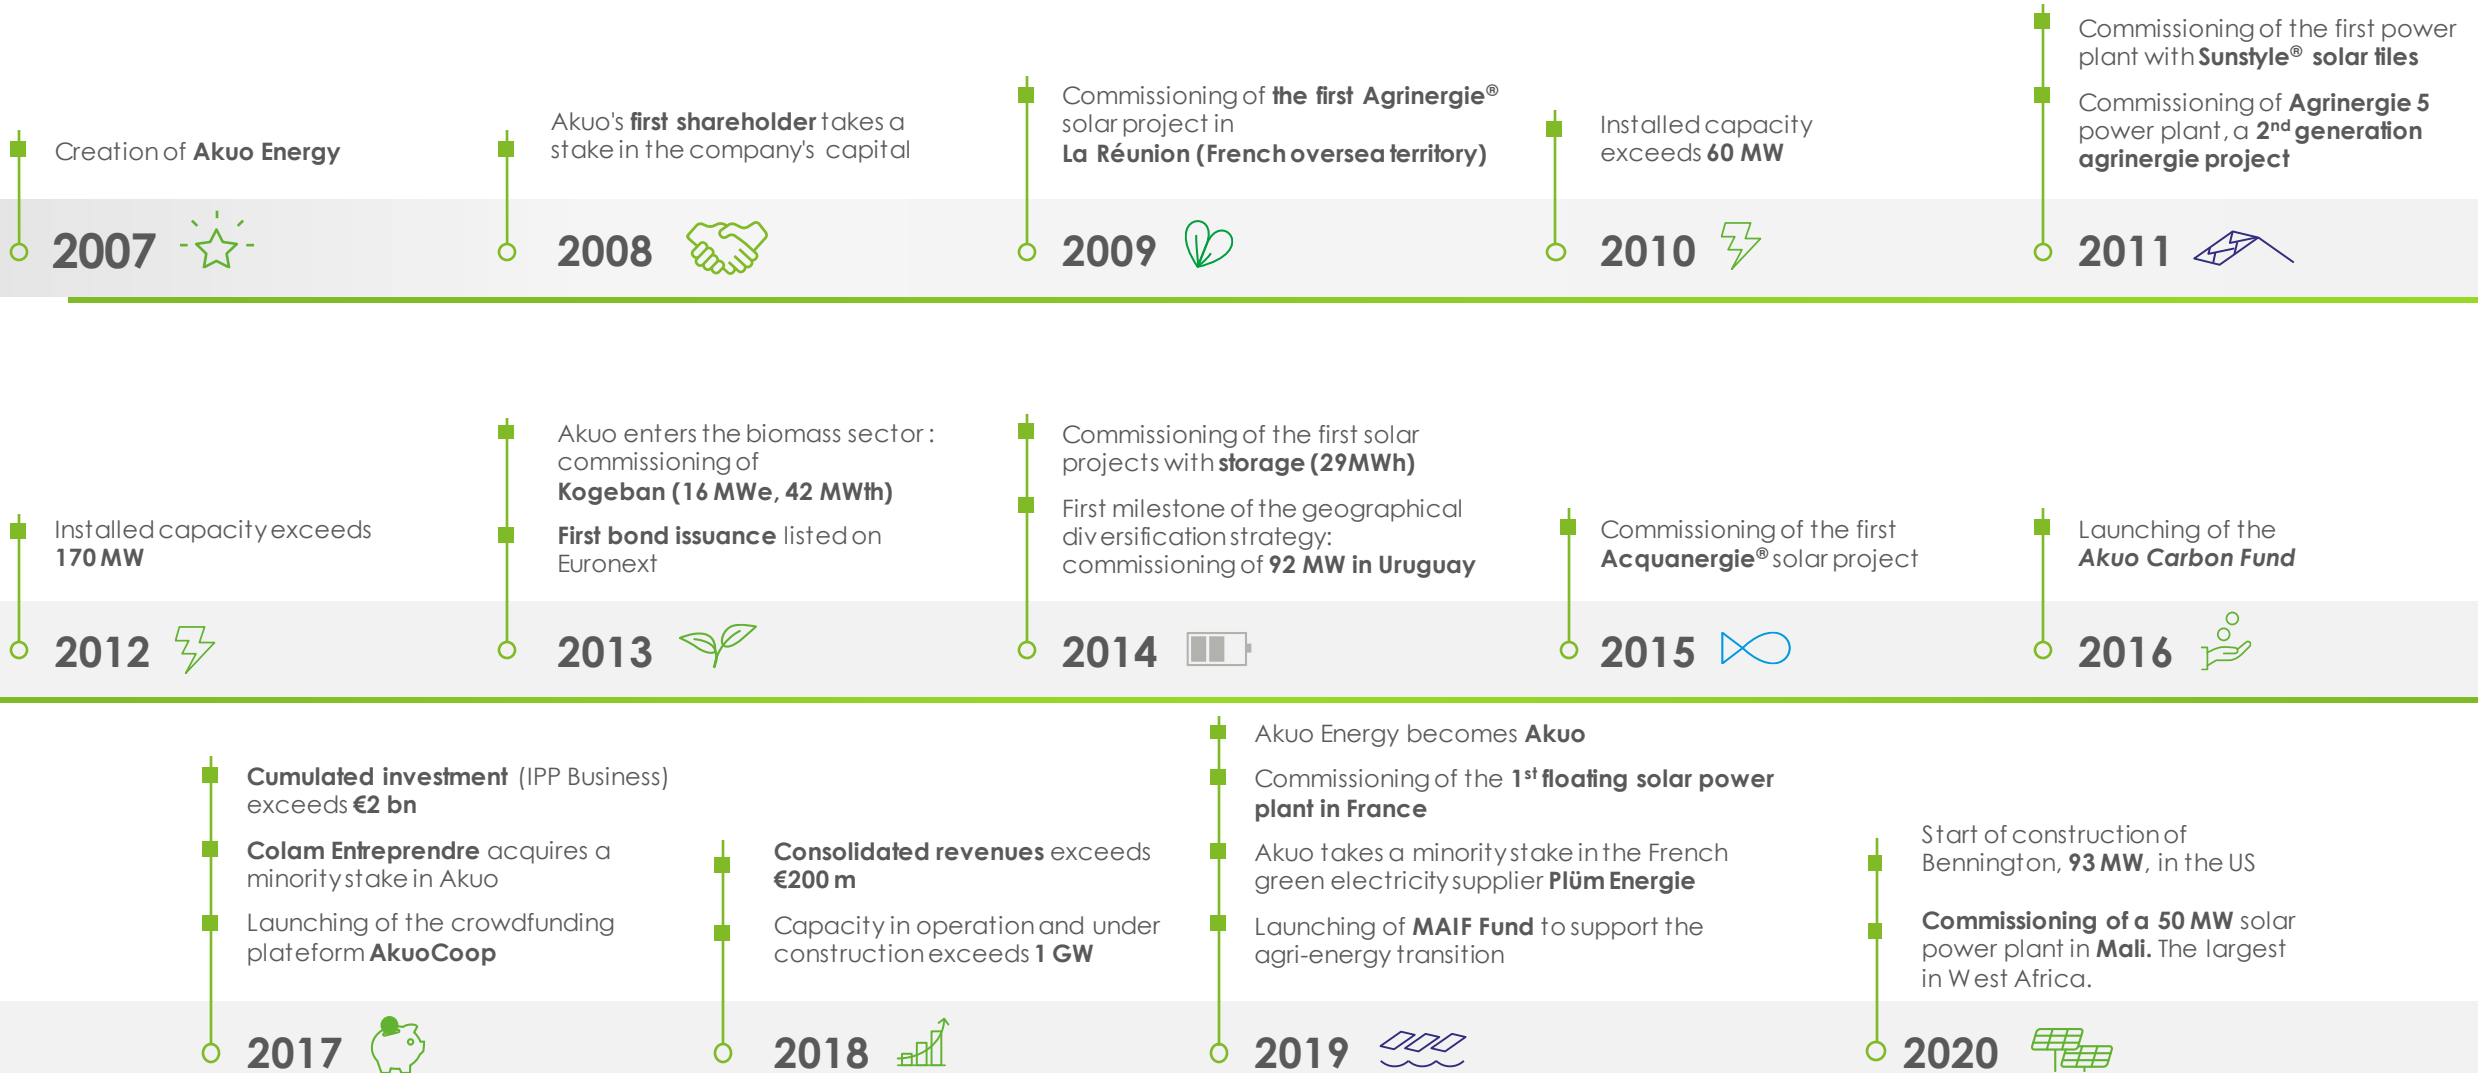

Investments made (€bn - aggregate)

Energy sales (€m)

| CONSISTANTLY SUCCESSFUL!

AKUO (Headquarters)

140 avenue des Champs Elysées 75008 Paris, France
